Code No: 121AF

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B.Tech I Year Examinations, July - 2021
COMPUTER PROGRAMMING
(Common to CE, EEE, ME, ECE, CSE, EIE, IT, MCT, ETM, MMT, AE, MIE, PTM)

Time: 3 hours **Max. Marks: 75**

Answer any five questions
All questions carry equal marks

\- - -

1.a) Write a program to find whether the given number is palindrom or not.
b) Explain the usage of break, continue and goto statements with a sample C program. [8+7]

2.a) Discuss about recursive functions. Write a C program to find factorial of a given number N by using recursive function.
b) What is an array? Explain how to declare an array. [10+5]

3.a) What is meant by array of pointers? Explain its usage with a sample C program.
b) Write a program to concatenate two strings. [6+9]

4.a) Explain about passing structures through pointers with a sample C-program.
b) Explain about command line argument with an example. [8+7]

5.a) Distinguish between selection sort and bubble sort.
b) Write a program to implement the operations of stack. [7+8]

6.a) Explain about different types of operators in C.
b) Write a C program to find biggest and smallest numbers from an array. [7+8]

7.a) Explain about the enumerated data type.
b) Explain about storage classes in C. [7+8]

8.a) Explain the string handling functions in C.
b) Write a program to implement the binary search. [7+8]
