g)	What is the role of Environment Audit in EIA?	[2]
h)	What are the types of Environment audit and explain any one?	[3]
i)	What is the objective of Wild life act?	[2]
j)	What are the salient features of The Air (Prevention and Control of pollution Act).	[3]

PART – B

(50 Marks)

2.a) Discuss the leopold matrix in detail with suitable example.
b) What are the limitations of Environment impact assessment? [7+3]

OR

3.a) Give a schematic diagram of EIA clearance process.
b) What is the significance of cost benefit analysis in EIA? [7+3]

4.a) Describe in detail the ecological monitoring and audit programme.
b) Differentiate direct and indirect impact in vegetation and wildlife impact analysis. [8+2]

OR

5.a) Give the formula for
i) Relative dominance
ii) Relative frequency and relative density in biological assessment.
b) What are the guiding principles for green belt development? [6+4]

JNTUH Used papers 2023

6.a) What are the mitigation measures adopted in restoring the soil properties?
b) Mention different soil functions that is considered for any soil environment study. [5+5]

OR

7.a) What is meant by soil liquefaction and how it caused?
b) What are the impact occurs in land during operation phases?
c) What is meant by land drainage? [4+4+2]

8.a) How often environment audit are conducted in an organization?
b) What are the principle areas of environmental auditing?
c) What are the steps involved in pre audit activities? [2+5+3]

OR

9.a) What are the salient features of Functional Environment audit?
b) Justify the link between Environment audit and Environment impact assessment with suitable example. [5+5]

10. Explain in detail the environment management plan for Air, Water and Land environment for thermal power plant project. [10]

OR

11. List out the standard terms of reference for conducting EIA study for Mining projects and information to be included in EIA and EMP report. [10]
