Code No: 116FA **R13**

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech III Year II Semester Examinations, May - 2019
INTRODUCTION TO ANALYTICS
(Common to CSE, IT)

Time: 3 hours **Max. Marks: 75**

Note: This question paper contains two parts A and B.
Part A is compulsory which carries 25 marks. Answer all questions in Part A. Part B consists of 5 Units. Answer any one full question from each unit. Each question carries 10 marks and may have a, b, c as sub questions.

user paper 18-05-19 PM

PART - A

(25 Marks)

1.a)	Define Work Management?	[2]
b)	Explain about the concept of Reading Datasets.	[3]
c)	Define Bivariate Random variable?	[2]
d)	Give different types of probability distributions.	[3]
e)	State about SQL.	[2]
f)	Write the differences between NOSQL and SQL.	[3]
g)	What is spectral density?	[2]
h)	Explain assumptions about OLS regression.	[3]
i)	Give information about process of engineering design.	[2]
j)	Discuss about types of automated systems.	[3]

PART - B

(50 Marks)

2.a) How priorities are given in data base? Explain.
b) Explain about time management. [5+5]

OR

3. Explain the following with syntax and example.
a) Numeric
b) Character
c) Date
d) Array [10]

4. What do you mean by probability distribution? Explain R features for probability distribution. [10]

OR

5.a) Explain why effective communication skills are important.
b) Explain summarizing the data with R. [5+5]

6.a) Explain about structured queuing theory with example.
b) Discuss the various features of R-windows. [5+5]

OR

7.a) Write the NOSQL database classification based on data model. Give examples.
b) List the steps for connecting R to NOSQL database. [5+5]

8.a) Differentiate between regression and correlated analysis
b) Give an overview of auto correction. [5+5]

OR

9. Give an overview of ANOVA. [10]

10. Explain about process of State engineering design. [10]

OR

11.a) Give an overview of requirements gathering.
b) Explain about production lines. [5+5]
