Code No: 117JU **R13**

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech IV Year I Semester Examinations, May/June - 2019
BIG DATA ANALYTICS
(Common to CSE, IT)

Time: 3 Hours **Max. Marks: 75**

Note: This question paper contains two parts A and B.
Part A is compulsory which carries 25 marks. Answer all questions in Part A. Part B consists of 5 Units. Answer any one full question from each unit. Each question carries 10 marks and may have a, b, c as sub questions.

JNTUH USED 22-05-2019PM

PART- A

(25 Marks)

1.a)	What are the sources of secondary data?	[2]
b)	Which source of Data is more reliable and Why?	[3]
c)	What are the two types of gaps in the data?	[2]
d)	Explain Kepner - Tregoe Approach?	[3]
e)	What are graph databases?	[2]
f)	Discuss the need for data pre-processing?	[3]
g)	What does the test data mean?	[2]
h)	Discuss the difference between classification and clustering?	[3]
i)	Define data presentation architecture.	[2]
j)	Why do we use data visualization?	[3]

PART-B

(50 Marks)

2. Explain the steps to show how design data architecture is used to manage the data analysis. [10]

OR

3. Discuss the various types of emergencies that may come across at the workplace. [10]

4. Explain in detail about the benefits of using Spark, Scala and Impala. [10]

OR

5. With a neat diagram explain the Knowledge management needs to deal with knowledge items. [10]

6. What are outliers and explain the process involved in detecting them? [10]

OR

7. With the help of an example explain in detail about MapReduce technique. [10]

8. Explain in detail about various types of machine learning algorithms. [10]

OR

9. Give case studies to explain the practical uses of machine learning algorithms. [10]

10. List out the insights out of the visualization tools. Explain. [10]

OR

11. Write down steps involved in Data Visualization using InTableu tool. Explain. [10]
