Code No: 133BM **R16**

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech II Year I Semester Examinations, April/May - 2023
OBJECT ORIENTED PROGRAMMING THROUGH JAVA
(Common to CSE, IT)

Time: 3 Hours **Max. Marks: 75**

Note: i) Question paper consists of Part A, Part B.
ii) Part A is compulsory, which carries 25 marks. In Part A, Answer all questions.
iii) In Part B, Answer any one question from each unit. Each question carries 10 marks and may have a, b as sub questions.

JNTUH Used papers 2023

PART – A

(25 Marks)

1.a)	What is an Object? How to allocate memory for objects?	[2]
b)	Explain why Java is Machine Independent.	[3]
c)	Compare interface and abstract class.	[2]
d)	What is a package? How to define it and access it?	[3]
e)	How does Java support inter thread communication?	[2]
f)	What keywords are essential in handling user-defined exception?	[3]
g)	What is tree set class?	[2]
h)	What is the use of Iterator class?	[3]
i)	Explain about JCombo box.	[2]
j)	Give an overview of JButton class.	[3]

PART – B

(50 Marks)

2.	Discuss the drawbacks of procedural languages and explain the need of object oriented programming with suitable program.	[10]
	OR	
3.a)	Explain the importance of constructor.	
b)	Is Java a robust language? Justify your answer.	[5+5]
4.a)	Identify the relationship between classes and interfaces.	
b)	Distinguish between byte streams and character streams.	[5+5]
	OR	
5.a)	Discuss how to define and import a package? Explain with an example.	
b)	What is auto boxing? Explain.	[5+5]
6.a)	Describe producer-consumer pattern using inter-thread communication	
b)	Explain the concept of java built in exceptions with an example.	[5+5]
	OR	
7.a)	What is meant by re-throwing exception? Discuss a suitable scenario for this.	
b)	Write a program that demonstrate the priority setting in threads.	[5+5]

8.a) Write a program to store the names of bank depositors and their current balances by using hash table.

b) Explain the implementation of priority queue in java. [5+5]

OR

9.a) Write a program which stores a list of strings in an Array List and then displays the contents of the list.

b) Explain various interfaces used in Collection framework? [5+5]

10.a) Explain procedure to handle mouse events in Java with an example program.

b) Illustrate in detail about the various layout managers used in Java? [5+5]

OR

11.a) Write a java program to design a scientific calculator using AWT.

b) Describe in detail about the various event listener interfaces. [5+5]
