R16

Code No: 138FH

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech IV Year II Semester Examinations, September - 2022
WEB SERVICES AND SERVICE ORIENTED ARCHITECTURE
(Computer Science and Engineering)

Time: 3 hours **Max. Marks: 75**

Answer any Five Questions
All Questions Carry Equal Marks
- - -

1.a) How distributed computing has changed the traditional network programming? Explain with a suitable program.
b) Compare the limitations of RMI with CORBA. [8+7]

2.a) What is a web service? How does it differ from a web application? Explain with example scenarios.
b) Briefly discuss any three technologies being used in delays for web services. [7+8]

3.a) What is XML? How does it complement SOAP, WSDL?
b) With an example demonstrate the basic steps of implementing a web service. [7+8]

4. Write code to develop a webservice for weather reporting using J2EE– explain the functions exposed by this service provider. [15]

5.a) How to create a WSDL definition for a web service? Explain with an illustration.
b) What is XML element? What is XML namespace? What is the importance of namespaces? [7+8]

6.a) How are errors handled in Simple Object Access Protocol? Demonstrate with an example.
b) Illustrate service roles in a service-oriented architecture. [8+7]

7.a) What is UDDI? Explain its role in expanding potential business partnerships.
b) Explain the need and significance of UDDI business registry with necessary code.[7+8]

8.a) What is cryptography? Explain the need of cryptography and encryption for web services.
b) Define semantic interoperability problem.
c) Describe standard distributed management framework. [5+5+5]
