B. Tech III Year II Semester (Special) Examinations, January/February - 2021
ARTIFICIAL INTELLIGENCE
(Computer Science and Engineering)

Time: 2 hours **Max. Marks: 75**

Answer any five questions
All questions carry equal marks
- - -

1.a) What is artificial intelligence technique?
b) Explain why problem formulation must follow goal formulation. [5+10]

2. Explain A* algorithm with suitable example. [15]

3. What are the various approaches used to represent knowledge representation? Illustrate the first order logic to represent the knowledge. [15]

4. Discuss about extended semantic networks for knowledge representation. [15]

5. Describe different phases in building expert systems. [15]

6. Explain the Expert system architecture with a neat sketch. [15]

7. Describe the decision tree learning algorithm. [15]

8. What are the phases of sentence analysis? Elaborate each phase in detail. [15]
