Code No: 136FD **R16**

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech III Year II Semester Examinations, February/March - 2022
GEOINFORMATICS
(Common to EEE, ME, CSE, MIE)

Time: 3 Hours **Max. Marks: 75**

Answer any five questions
All questions carry equal marks
- - -

1.a) Explain in detail the concept of stereoscopic parallax in Aerial Photography.
b) What are the fundamental principles and objectives of aerial photo-interpretation? [8+7]

2.a) Explain in detail, how will you measure height of an object using aerial photograph.
b) Discuss in detail, the characteristics of photographic images. [7+8]

3.a) What are the different methods of data collection in remote sensing? Explain briefly.
b) Explain types of resolutions with examples. [7+8]

4.a) Briefly discuss the essential components of remote sensing.
b) What is meant by spectral reflectance curve? Explain briefly with neat sketch. [8+7]

5.a) What is digital number in satellite image?
b) Write about image enhancement techniques in digital image processing. [5+10]

6.a) What are the applications of remote sensing in civil engineering? Explain briefly.
b) What is meant image enhancement and explain its techniques? [8+7]

7.a) What are the fundamental operations in Geographic Information System?
b) Explain briefly different data input methods in GIS. [7+8]

8.a) What is the difference between GNSS and GPS? Explain briefly.
b) Compare GLONASS and GALILEO. [7+8]
