Code No: 117BN **R13**

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech IV Year I Semester Examinations, December - 2019
CLOUD COMPUTING
(Computer Science and Engineering)

Time: 3 Hours **Max. Marks: 75**

Note: This question paper contains two parts A and B.
Part A is compulsory which carries 25 marks. Answer all questions in Part A. Part B consists of 5 Units. Answer any one full question from each unit. Each question carries 10 marks and may have a, b, c as sub questions.

JNTUH UPDATED 10-12-2019 PM

PART- A

(25 Marks)

1.a)	Define Virtual machines.	[2]
b)	List the design objectives of the computer cluster.	[3]
c)	What is meant by cloud computing?	[2]
d)	Write the pros and cons of cloud computing.	[3]
e)	Define Software as a Service.	[2]
f)	Give a brief note enhancing Cloud Computing Environments using a cluster as a Service.	[3]
g)	How does AWS cloud work?	[2]
h)	Write about the features of HPC clouds.	[3]
i)	How do you ensure data security in cloud computing?	[2]
j)	What is Composability in cloud computing?	[3]

PART - B

(50 Marks)

2.a)	Elaborate the Computer Clusters for Scalable Parallel Computing.	
b)	Discuss levels of virtualization implementation in detail.	[5+5]
	OR	
3.a)	Explain the Distributed System Models with neat architectural diagrams.	
b)	Illustrate the Virtual Machines Provisioning and Virtual Machine Migration Services.	[5+5]
4.	Explain the Enterprise Cloud Computing Paradigm in detail.	[10]
	OR	
5.a)	Give a brief note on Migrating into a Cloud.	
b)	List and explain the benefits of cloud computing.	[5+5]
6.	Write down the importance of setting up cloud environments, in various scientific applications by illustrating day two case students.	[10]
	OR	
7.	Discuss the Management of Virtual machines for Cloud Infrastructures.	[10]
8.	Explain the SLA Management in Cloud Computing.	[10]
	OR	
9.	Elaborate the best practices in architecting cloud applications in the AWS cloud.	[10]
10.	List and explain the common change management models.	[10]
	OR	
11.	Give a brief note on legal issues in Cloud computing.	[10]
