R15/R13

Code No: 125AN/115AN

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B. Tech III Year I Semester Examinations, March - 2021
PRINCIPLES OF PROGRAMMING LANGUAGES
(R15-Computer Science and Engineering; R13-Computer Science and Engineering)

Time: 3 hours **Max. Marks: 75**

Answer any five questions
All questions carry equal marks
- - -

1.a) State Reasons for studying Concept of Programming Languages.
b) What purpose do predicates serve in an attribute grammar? Give illustrations. [7+8]

2.a) Discuss in detail about the different programming domains and their associated languages.
b) Explain ambiguous grammars with an example. [8+7]

3. What is a Data Type? Explain in detail about various primitive data types. [15]

4.a) Explain in detail about the short circuit evaluation of an expression.
b) List the issues related to the mixed mode assignment. Explain with examples. [7+8]

5. Discuss about the two ways that a non-method subprogram can gain access to the data that it is to process. [15]

6. List and explain the design issues for functions and user defined overloaded operators. [15]

7. Explain the exception handling mechanism in Ada language. [15]

8.a) Compare and contrast of functional and imperative Languages.
b) Explain the use of conditional expression in Haskell language. [7+8]
