R16

Code No: 132AD

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD
B.Tech I Year II Semester Examinations, May - 2019
COMPUTER PROGRAMMING IN C
(Common to EEE, ECE, CSE, EIE, IT, ETM)

Time: 3 hours **Max. Marks: 75**

Note: This question paper contains two parts A and B.
Part A is compulsory which carries 25 marks. Answer all questions in Part A. Part B consists of 5 Units. Answer any one full question from each unit. Each question carries 10 marks and may have a, b, c as sub questions.

JNTUH USED 01-05-2019 AM

PART- A

(25 Marks)

1.a) Explain the conversion of Decimal number to Hexadecimal number with an example. [2]
b) Differentiate between declaration and definition of a variable. [3]
c) What is a user defined function? [2]
d) What is the use of type qualifier? [3]
e) Differentiate between *p++ and p++. [2]
f) What is a pointer? Explain how the pointer variable declared and initialized. [3]
g) Explain about the structures containing pointers with an example. [2]
h) Explain about self-referential structures. [3]
i) What is the usage of fget( ) and fput( ) functions. [2]
j) List the positioning functions in files. [3]

PART-B

(50 Marks)

2.a) Describe different Computing Environments.
b) Explain about type conversion mechanism available in C language. [5+5]

OR

3.a) Write an algorithm to find the factorial of a given number.
b) Differentiate between While and Do While with an example. [5+5]

4.a) Explain the different types of storage classes with an example.
b) Write a program to search the element in the given list by using the binary search. [5+5]

OR

5.a) Write a program to sort the elements by using bubble sort.
b) What is recursion? Explain the limitations of recursion. [5+5]

6.a) Write a program to find the length of the given string.
b) Explain the memory allocation functions with an example. [5+5]

OR

7.a) Explain the concept of pointers to pointers with an example.
b) Write a ‘C’ program to append a string to the end of other string by using string manipulation function. [5+5]

8.a) Explain about the enumerated data types with an example.
b) Explain about bit fields with an example. [5+5]

OR

9.a) Explain how the structure variable passed as a parameter to a function with example.
b) Explain the Command line arguments with an example. [5+5]

10.a) Differentiate between text and binary files with an example.
b) Write a 'C' program to append the contents of one file to another. [5+5]

OR

11.a) Write a 'C' program to count number of words and lines in the given text file.
b) Explain about file i/o operations in 'C'. [5+5]

---ooOoo---
